Penguin Criteria List- Example

How well does this solution
meet the criteria?

<u>Criteria</u>	Not well 1	2	3	Very Well 4
We were successful at creating an enclosure for the penguin that will protect it from heat and global warming.				
We were successful at choosing the best insulators for the enclosure.				
We were successful at keeping the right temperature for the penguin to survive, and not have to cool down in the water.				
We were successful at collaborating, working effectively, and sharing ideas.				
We were successful at keeping the enclosure cool and preventing heat gain, by comparing our results with others.				
We were successful at staying in the budget and using our money wisely to buy the best materials.				
We were successful at using our time effectively and wisely, and completed our project in time.				
We were successful at evenly splitting the work.				
We were successful at creating a safe, durable yet cold enough enclosure for the penguin ice cube.				
We were successful at purchasing the best materials for the enclosure, based on the test results.				
We were successful at completing all required tasks with great effectiveness, and creating an enclosure that effectively solved the problem.
