## **NEW! STEMPath Program and Your Student**

We are very excited about our new STEMPath program, happening this summer, and the chance to engage your student on this unique opportunity.

Science North is launching a new program entitled STEMPath. STEMPath is a program designed for students entering grades 7 – 9. The content is aligned with Ontario's Science and technology curriculum, and the primary objective of STEMPath is to inspire youth with STEM experiences and learning, and the potential careers that can be part of their future.

We are running a series of one-day stand-alone programs that will begin at 10 a.m. and end at 3 p.m. The day will have both a synchronous (live) and asynchronous portion (off screen). A kit of materials will be mailed directly to the address provided. Students are able to keep the kit after the program.

For each date, space is limited. We encourage you to register early to guarantee a spot for your student.

You can register directly on the Science North website (link below) and select which date/program you would prefer. Someone from Science North will then follow up and confirm your registration.

<https://bit.ly/3zQKwoe>

Should you prefer to register by phone, please call 705-522-3701 or 1-800-461-4898 ext. 222.

We thank you for your time and attention and look forward to seeing your student in our new STEMPath virtual camp this summer.

A handwritten signature in black ink that reads "Tina Leduc".
